Objective

To secure an internship for the summer of 2015 in the field of Computer Science.

Education

- Georgia Institute Of Technology
  - Major: Computer Science
- Tenafly High School
  - GPA: 3.78

Work Experience

- Programmer and communications leader for Lemelson-MIT InvenTeam - Group of 14 students who have been given $6,300 in order to invent a watch that will help those afflicted with early onset Alzheimer's
  - Project consisted of a watch and door system which would check in with each other to make sure that the patient was where he/she intended to be using GPS technology, and would text the caregiver in the case of a wandering incident with the patient's location.
- Intern at TTI Technologies (http://www.ttitel.com/), developed software that has been distributed to hotels
  - Project was written in Java, read the xml file outputted from an ID scanner to extract the data, and store it into a database. Would also present the information in a sleek easy to read format that allowed for editing incorrect information, black list a person, view previous check in dates, sort by name/check in date/blacklist status, and warn if a blacklisted person was trying to check in to the hotel.
- Tutor for kids in 2nd- 6th grade in all subjects, mainly Math for 3 years, 8 times a week for every school week
- Member of and Counselor in the Israeli-Scouts for 3 years

Extracurricular/Activities

- Participant in HackBCA at Bergen Academies
  - Winner of the SendGrid API prize (http://challengepost.com/software/snippy)
- Participant in HackRU at Rutgers spring 2014, and Codeday NY Spring 2014
- Participant in Pennapps Fall 2014
  - http://challengepost.com/software/gatekeepr-ub7te
- Participant in HackGT,
  - Placed in top 10 and won the eBay API prize (http://challengepost.com/software/nudge-h80im)
- Play the guitar

Skills

- Experience in: Java, C#, Typescript, Javascript, PHP
- SQL database experience
- Frameworks used: jQuery, Phaser, Bootstrap, JavaFX
- Html/CSS
- Quick and willing to learn new languages/Frameworks
